

Details Of Business

Business Divisions :-

- Material Handling Division
- Engineered Products Division

1. Material Handling Division

Jost's pioneered the concept of internal material handling and offers a wide range of equipment's and systems, such as pygmy pallet trucks, the Jumbo range of platform trucks, stacker, reach truck and racking systems. The markets in which we are very active for material handling division (MHD) include automotive, logistic, FMCG, railways, defence, pharma. MHD has modern manufacturing facilities at Thane, with ISO 9001:2008 certification, where the equipment's is manufactured with facilities for computer aided design, engineering, manufacture, erection and after sales service.

2. Engineered Products Division

The Engineered Products division (EPD) is associated with world leaders in different high technology application areas such as sound and vibration, environment simulation, process instruments, electromechanical components and electrical test and measuring instruments. EPD adds value to these products and delivers complete engineering solutions, backed by efficient service and application support to various industries in segments such as automotive, aerospace, oil & gas, defence, power, steel, engineering, railways. Customers buying imported instruments often require local help for their installation and commissioning. The company is in position to supply engineering services for these activities.
