

Jowalk

Electric Walkie Trucks

- Jowalk electric Walkie Trucks are available in 1,000 kg. capacity. These are specially designed to reduce operator fatigue as the 1.000 kg. load can be moved by merely pressing a switch. As Jowalk Walkie Trucks are battery operated, noise and smoke pollution are totally eliminated.
- Ideal applications for Jowalk Walkie Trucks exist in factories, warehouses, pharmaceutical and chemical industries, textile mills, foundries, docks, ordnance factories, food grain godowns, banks, railway platforms and workshops.

Technical Data

Capacity	kg	1000
Ground clearance	mm	70
Platform size	mm	1550x1000
Platform height	mm	605
Overall length (tiller driving position)	mm	2270
Overall width	mm	1000
Turning Radius	mm	1573

Drive motor : 1.25 h.p. traction motor operating on 24 Volts D.C supply.

No. of Speeds : Two forwards-Two reverse

Front wheel : 435x125mm solid non skid rubber type.

Rear wheels : 435x125mm solid non skid rubber types.

Brake : Mechanical tupe on drive wheel applied by raising or lowering the tiller arm.

Battery : 2 Nos.x 12 Volts automotive type total capacity 180 Ah.

Charger : Plug-in type charger provided with the truck.

Controls : Ignition key-horn-direction selection provided on tiller.
